## EDUCATION

| | | |
|---|---|---|
| Mangalayatan University Beswan , Aligarh | B.Tech (CSE) | 2022-2025 |
| Coursework : AI, ML,Networking, OOP, Data Structures,Software testing. | | CGPA 7.5/10 |
| R.B Gautam Polytechnic Hathras | | 2019-2021 |
| Coursework : Electrical Engineering | | 70/100% |
| Raja Mahendra Pratap I C Hathras | | 63/100% |
| Coursework : Intermediate | | 2018 |
| R P M Public School Hathras | | 6.8/10 |
| Coursework : High School | | 2016 |

## WORK EXPERIENCE

**Code Alpha -** Web Development Internship      **May/2024-Aug/2024**

- Student ID   CA/WD3/13707

- Implemented a diverse range of web applications, including a **Open Library Application**, React API integration, **Music Player**, and interactive **Myntra Clone** , by utilizing HTML, CSS , JavaScript and React JS skills , showcasing proficiency in modern web development technologies.

## SKILLS

| | |
|---|---|
| **Languages** | Java, C++, OOP , MYSQL , HTML , CSS , JavaScript. |
| **Soft Skills** | Leadership , Teamwork , Growth Oriented , Performance Focused. |
| **Tools&Technology** | Vs Code , Git , Github. |

## PROJECTS

### 1. CloneTube – YouTube Clone

The **CloneTube** project demonstrates my expertise in building full-stack applications using the MERN stack and integrating third-party APIs like YouTube Data API. By replicating YouTube's core functionalities, I showcased my ability to develop scalable, responsive, and feature-rich web applications while ensuring a seamless user experience through optimized backend logic and dynamic front-end design.

### 2. E-Commerce

This project is a full-stack E-Commerce application that offers users a seamless shopping experience. Built using the MERN stack, it combines a robust backend with a dynamic and responsive frontend. It includes an Uservpanel for managing the store and a user friendly interface for customers to browse, search, and purchase products.

### 3. Ticket Reservation System

The Project showcases advanced skills in full-stack development with the **FERN & MERN stack**, emphasizing user experience through **Spline 3D** . This project highlights my ability to combine innovative technologies and practical functionality to create engaging, secure, and scalable web applications.

## ACHIEVEMENTS AND CERTIFICATES

| | |
|---|---|
| Full Stack MERN Web Dovelopment Training | (30 _Days_Coding) |
| Creating Responsive Web Page using Bootstrap-4 | (Infosys Springboard) |
| Data Structures & Algorithms in Java : Working with Binary Search Trees | (Infosys Springboard) |
| Exploring Learning through Decision Tree | (Academic Certificate) |
